14,509 cubic yards

Completion

2006

Located in Chicago's south loop neighborhood, this mid-rise condominium is another example of the booming condominium market. Atop 2 levels of parking are 10 levels of loft style condominiums. The exterior facade mixes green floor-to-ceiling glazing with expansive balconies and exposed concrete. Units feature 10 foot, exposed concrete ceilings, high end finishes, and available heated parking spaces.
